MSMS MyriadSea Management System Update Notice

A new version of MSMS has been issued, **version 6.8**. This replaces all previous MSMS versions. The online version of MSMS has been updated, and can be accessed at www.myriadships.com – note that you may need to refresh your browser to ensure the current version displays. Always check the top right to ensure you are viewing **version 6.8**.

The following is a summary of the changes that have been made to the system:

Amendments

Section	Title	Details of Change
B06	Maintenance	Section B06.14 Inventory (Stock) Management added. This section highlights the importance of good management of stock onboard, given both its value and its vital importance to the safe operation of the ship. It clearly defines which Officers are responsible for stock management, and sets out what is required in terms of record keeping and inventories (stock-takes).

All crew are required to familiarize themselves with these new sections, and apply them as required.

We remind everyone that forms and instructions should only be printed when needed, to ensure that old forms are never in use.

Ian McIntosh-Oakley

Managing Director
